

Report

Stream Processor Performance Testing-filter-4.0.0-M20

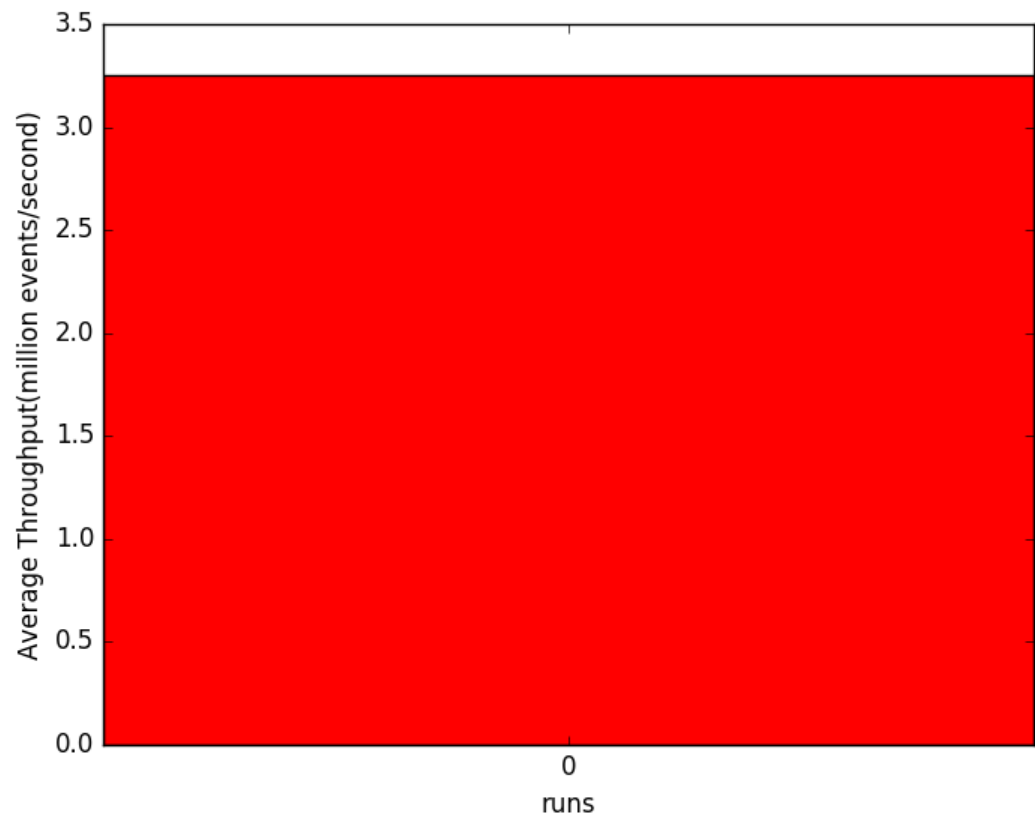

August 14, 2017

1 Average Throughput During 60-180 seconds time period since the start of the benchmarking experiment

1.1 Summary Table

Experiment runs	Average Throughput(million events/second)
0.0	3.24860103088

1.2 Graph

1.3 results

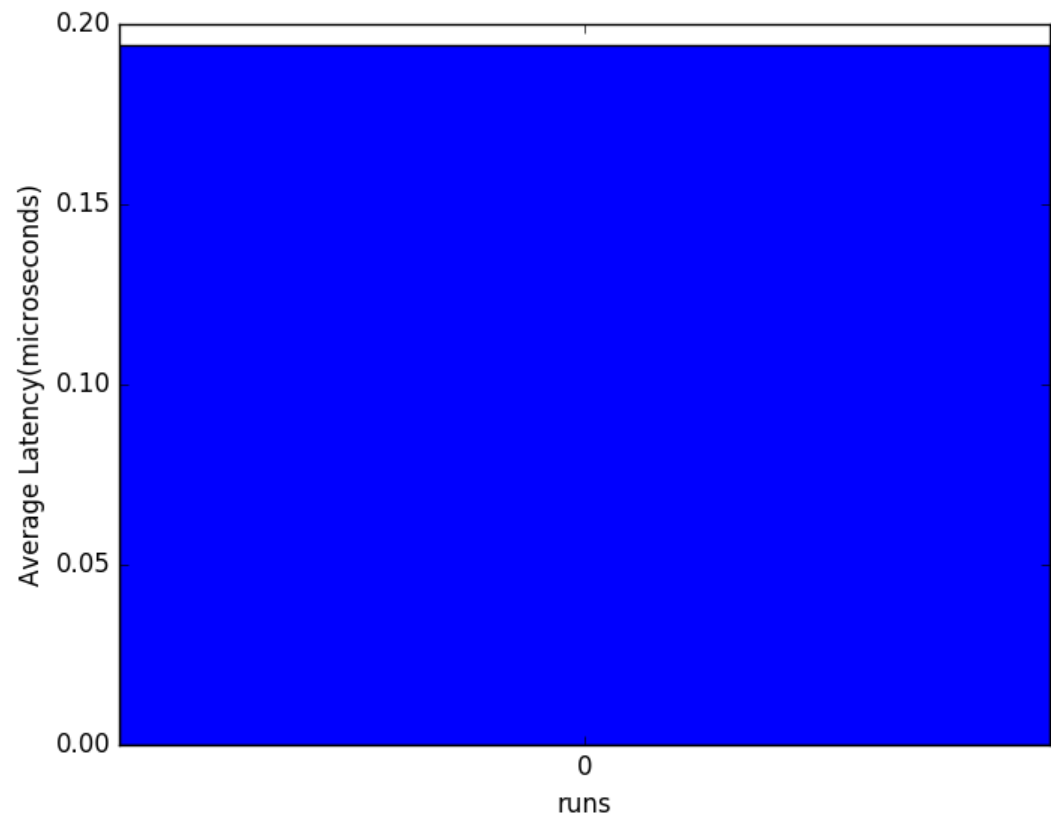

Over all throughput average (million events/seconds) of filter-4.0.0-M20 is 3.24860103088

2 Average Latency During 60-180 seconds time period since the start of the benchmarking experiment

2.1 Summary Table

Experiment runs	Average Latency (micro seconds)
0.0	0.194104803493

2.2 Graph

2.3 results

Over all latency average of filter-4.0.0-M20 is 0.194104803493
