Report

Stream Processor Performance Testing-passthrough-3.1.0
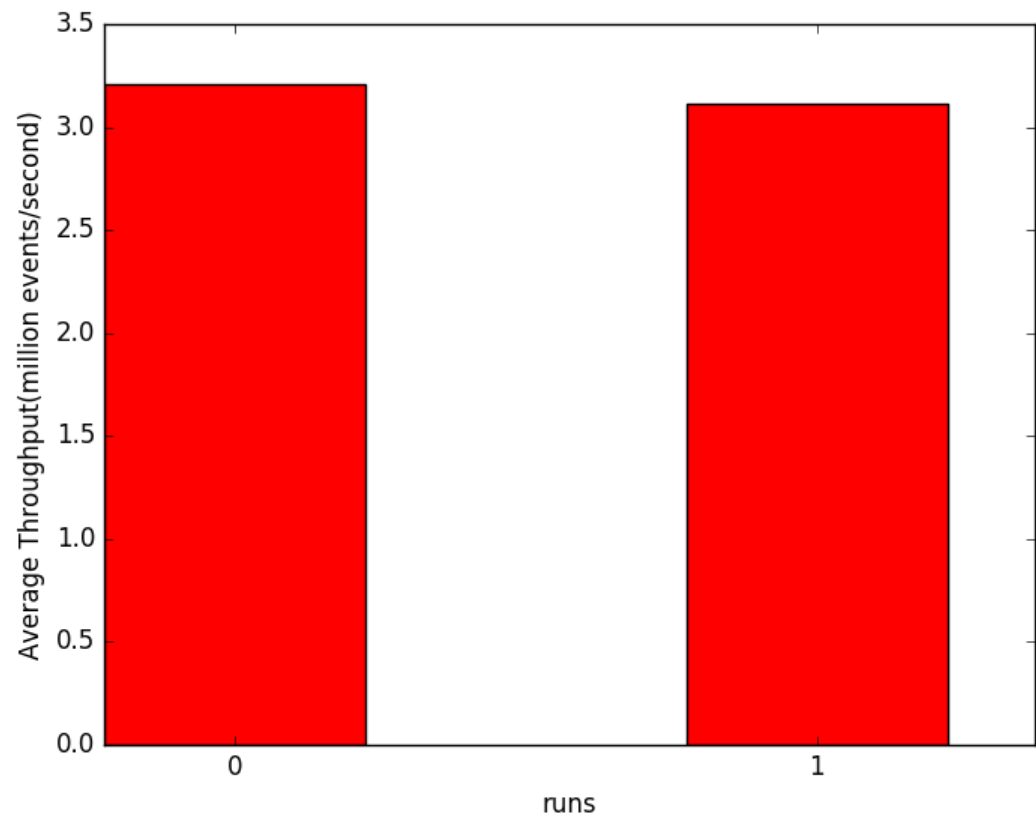

August 14, 2017

1 Average Throughput During 60-180 seconds time period since the start of the benchmarking experiment

1.1 Summary Table

| Experiment runs	Average Throughput(million events/second)
0.0	3.20800406715
1.0	3.11374839693

1.2 Graph

1.3 results

Over all throughput average (million events/seconds) of passthrough-3.1.0 is 3.16087623204

2 Average Latency During 60-180 seconds time period since the start of the benchmarking experiment

2.1 Summary Table

Experiment runs	Average Latency (micro seconds)
0.0	0.197500399723
1.0	0.212997536272

2.2   Graph

2.3   results

Over all latency average of passthrough-3.1.0 is 0.205248967997
