Report

Stream Processor Performance Testing-filter-3.1.0

August 15, 2017

1 Average Throughput During 60-180 seconds time period since the start of the benchmarking experiment

1.1 Summary Table

Experiment runs	Average Throughput(million events/second)
0	3.12521109249

2 Average Latency During 60-180 seconds time period since the start of the benchmarking experiment

2.1 Summary Table

Experiment runs	Average Latency (micro seconds)
0	0.208920547945
